

Quality, Environment, Energy, Occupational Health and Safety Policy

Research, development, production and distribution of Active Pharmaceutical Ingredients and Final Dosage Forms manufactured by “Grindeks” are managed to ensure product quality, to take care and to save energy resources and environment, and to support employee safety and health protection at work.

The ground principles of the Quality, Environment, Energy, Occupational Health and Safety Policy of “Grindeks”:

Appropriate actions in compliance with:

- expectations of shareholders and employees;
- expectations and satisfaction of customers;
- State legislation and other requirements.

Implementation and continuous supervision of fulfilment of the current Good Practices (GxP) principles.

Continuous improvement within the framework of the planned resources:

- of the Quality Management System in accordance with the Standard LVS EN ISO 9001;
- of the Environmental Management System in accordance with the Standard LVS EN ISO;
- of the Energy Management System in accordance with the Standard LVS EN ISO 50001;
- of the Occupational Health and Safety Management System in accordance with the Standard LVS OHSAS 18001.

Continuous reduction of environmental impact of manufacturing process, products and services.

Continuous planning of energy purchases, energy consumption, increase of energy effectiveness and decrease of costs of energy recourses.
